

SKILLS DEVELOPMENT SERIES

TURBO CHARGING YOUR SLIDES FOR PRESENTATION SUCCESS

8th (Thu) & 9th (Fri)
February 2018

Holiday Inn Singapore
Orchard City Centre

2-day Training Workshop

PowerPoint slides are a powerful tool for any presentation, providing critical visual aid to help put across key messages and financial numbers.

Though countless hours of hard work have been invested to prepare them, in many cases, presenters fail to bring their messages across effectively. While most people have no problems using PowerPoint, the main challenge is to understand how their audience absorbs and digests information visually.

Adding to this challenge, with the short meeting time available, presentation slides need to be not only effective, but versatile to address various audience styles and preferences.

Through this practical and content-packed 2-day workshop, participants will be equipped with the knowledge and skills to design impactful PowerPoint slides, empowering them to ace those important presentations and achieve the success they want.

UNRAVEL THE MIND OF YOUR AUDIENCE

⇒ Understand how the audience perceive and digest information, and avoid the top annoyances that frustrate them

This segment will let you in on the inner workings of your audience’s brain, and how you can connect with your audience by engaging their minds effectively.

UNPACK THE TOOLS OF A DESIGNER

⇒ Acquire designer skills and techniques to transform mundane information into attractive and effective slides

Through this segment, we will turn you into an instant “designer” by equipping you with tools of the trade used by professional designers to reach out to their audience. Included in this segment is a study of 5 to 10 decks of well-designed slides, and how you can emulate the techniques used and apply them to your own slides.

To make it more exciting for you, we’ll be equipping you with the skills to create 2 types of graphics that are widely used today; pictograms and silhouettes. They are used everywhere; in adverts, videos and even in your phones. It is a must have graphic element in your slides.

CREATE UNITY IN DIVERSITY

⇒ Develop the ability to design smooth flowing presentations from one keypoint to another

Here, you will learn a systematic approach to creating a unified and coherent deck of slides so that your audience will be clear with the flow and framework of your presentation.

HARNESS THE POWER OF ANIMATION

⇒ Learn to apply relevant and effective animations to greatly enhance the audience’s understanding of the presentation

The truth is, when used appropriately with taste and creativity, animation has the power to multiply the impact of your presentation. Through this segment, we’ll explore how animation is one of the key elements in making your presentation stand out from the crowd.

DESIGN CLEAR AND EFFECTIVE CHARTS

⇒ Discover the skills to remove noise from charts and present the key numbers with clarity, creativity and efficiency

The purpose of this segment is to equip you with the right techniques to cut through the numerical jungle and empower you to present quantitative values with clarity and effectiveness.

DEVELOP YOUR RESERVOIR OF RESOURCES

⇒ Create effective slides in double-quick time by building and activating a rich reservoir of resources

This segment will enable you with little known yet powerful techniques used by graphic designers to create impressive graphics. You will also be guided to create your own e-resource book that you can flip through and get ideas, especially when you are hard-pressed for time.

DISCOVER THE TREASURE TROVES ON THE INTERNET

⇒ Tap into numerous invaluable online graphic resources to create attractive and captivating slides

This segment will show you how you can sift through mountains of thrash on the internet and discover treasure troves of resources to create your impressive and effective slides.

NOTE: This course includes hands on practice sessions. All delegates must bring along their own laptops preloaded with Microsoft PowerPoint Software, preferably 2010 version and above.
